

Write2Them

**KEEP THIS FORM BY THE PHONE**

Shortly after arriving at Basic Training your son or daughter will call you with their mailing address!

**We turn email into letters from home™**

Mail Call...the best part of each day at Basic Training...when your name is called!

During Basic Training, young men and woman have very limited access to cell phones or the Internet.

Letters from home are strongly encouraged and Write2Them allows friends and family to conveniently send those letters using email.

Write2Them assigns a unique email address to your son or daughter. Family and friends send emails and Write2Them prints and mails them daily.

Attach photos or scanned newspaper articles to any email message and send as many emails as you like.

Write2Them sends letters from home to all Armed Services basic training locations (including the Service Academies).
